Profile

Hi, I am a passionate software developer and IT enthusiast. I have 2 years experience in IT field, starting from majoring in computer network engineering vocation high school and majoring in Information Systems at Pamulang University. I am a positive person who loved to challenge my self and always willing to learn more. I am also reliable and have a strong sense of discipline.

As a software developer, I possess strong analytical skills to identify problems and find appropriate solutions. I am capable of working collaboratively in a team, communicating effectively, and being flexible in adapting to technological advancements and project requirements.
